

# Why Choose DJ America?

Will your Reception day be one to remember or forget?

Do you want *Sophistication & Elegance* or Cheesy & Corny?

Will your guests want to stay or leave?

***The answers depend upon the entertainment choice you make...***

**U**nfortunately, only a small portion of your overall wedding budget will be spent on the entertainment. Yet, according to *Modern Bride Magazine*, over 38% of your guests will remember your entertainment more than they will remember your gown, flowers, food, or ANY other aspect of your reception!

**T**he majority of your time at your reception will be spent being entertained by your DJ. Isn't it important that your entertainer realize this day is about you, your family and your friends... and not about him or her? Isn't it important that your DJ retain a sense of elegance and classiness rather than embarrass you and your guests throughout the entire evening? It's important to have fun, but at whose expense?

**M**any times, brides are disappointed with their entertainment choice because they never realized that a Professional DJ does more than just play music. Your DJ America performer will not only play music, but will also act as the MC as well as the Event Coordinator, making sure that your reception flows as smoothly as possible.

**O**f course, there are many other reasons to choose DJ America. If you haven't already, please give us a call for a free consultation and complete information. We promise to show you why DJ America is the right choice.

***After all, isn't your day worth it??***
